BRASMAR GROUP

BRASMAR GROUP SGPS is a leading seafood group in Europe and exporting worldwide in seafood sector and focused on the business on the processing and marketing of octopus, frozen fish, shellfish, cephalopods and codfish, which are capable of providing all packaging formats available in the seafood industry.

Founded in 2003, it currently assumes the position of Portuguese market leader in the seafood industry, with the highlight going to its operational, financial and organisational performance with a consolidated turnover in 2021 in the amount of 240 million euros.

Brasmar has 6 industrial units ready to meet the most demanding specifications requested by our clients.

The several industrial units that comprise the Brasmar Group combine the best manufacturing practices with a strong investment in state-of-the-art technology and machinery. With specialised production units by type of product, we are able to offer a wide selection of

frozen, chilled and salted sea products.

The Group also has 10 commercial units around the world, which include teams prepared to respond to the market needs in which they operate.

We strive daily to identify and develop new products, using the latest and most innovative equipment, which allows us to better respond and satisfy the needs of the markets we operate in.

We are recognized for the quality, consistency and variety of our products, and complement these with a dynamic and effective service.

For any product category, we have the most suitable packaging format, including boxes, dedicated bags, thermoformed packs, flow packs, skin packs, among others.

PASSIONATE ABOUT WHAT WE DO

CEO

The key to our success is to pledge our commitment in sustainability, higher quality products and R&D.

MARKETING DIRECTOR

All the research, any new developed product or the latest innovations do not have any sense without understanding of the market place, its trends and its culture.

SALES MANAGER

Only with passion in what we do, we will get our clients passionate.

FINANCE DIRECTOR

In order to position our company in the long term we must reinvest in human resources, technology and production equipment.

WHY CHOOSE BRASMAR PRODUCTS?

Brasmar is the brand of frozen seafood products with the greatest variety in Portugal. Presenting a portfolio with more than 200 species, the brand offers products in the categories of fish, seafood, cephalopods, dried salted codfish, desalted codfish and light salted codfish.

In addition to providing a wide selection of sea products, Brasmar makes the difference in the market by being a reference in the processing of octopus and codfish: its flagship products.

As a result of its team work and know-how, the Brasmar brand has been awarded in Portugal the “Sabor do Ano” (Flavour of the Year) label by the consumers in the categories of cleaned octopus and dried codfish loins and steaks.

Brasmar processes and markets seafood products following rigorous specifications through responsible practices that seek sustainable development and customer satisfaction.
